

It's Time to Think About Embroidery for Xmas.

Santa is getting things ready for his long pilgrimage, and especially those things that take more or less time to make. How is it with you? Isn't it time to think about your Silk Embroidery, Lace and Battenburg work. Our stock is being replenished each week with new Pillow Tops, Linen Doilies, Burlaps Real Lace Baid, Stamped Trays, Luncheon Clothes and Huck.

New Pillow Tops in Lithograph at 25c and 50c. Japanese Embroideries and Tapestries. The largest line of Pillow Cords in this section. By the yard. Tasseled Cords, 25c, 50c, 75c and \$1.00. To see our line is to see the best the market affords for the price.

Salter's Embroidery Silk—If you'll embroider with Salter's you'll find genuine satisfaction. We have it in Filo Selle, Twisted Embroidery Rope, Parassian Floss and Montimelleck. Remember Salter's is all ready for use.

Prize Won in Antherea Contest.

We are pleased to announce that Miss Mary White won one of the cash prizes in the Antherea contest for the most reasons why Antheria is superior to any lining silk for the price. Antheria Lining Silk, 58c per yard.

FOXVILLE.

The quarry schools in Foxville closed Friday, November 6. The primary department observed the day with rhetorical exercises. The following pupils were without an absent mark, Daisy Perrie, Beattie Perrie, Sadie McIntyre, Agatha McIntyre, Valmae Goynon, Delore Bishop. There was a very good attendance. The pupils enjoyed candy, picture books and souvenirs. They showed their appreciation for the teacher, Miss Minor, by presenting her a gold bracelet and a shirt waist set of pearls. All desire her to return for the winter term.

LOUIS BIANCHI.

A TERRIBLE INSECT.

Reasons For Handling the Boll Weevil with Care.

A man living near Morrilton, Ark., has returned to that town from Texas and brought back a dozen cotton boll weevils.

This man is playing with fire, says the Arkansas Gazette. He might as well have brought back a gelatin tube full of yellow fever germs from Laredo. The plague of rabbits in Australia started from a handful of these animals that were imported from another land.

Everybody knows that certain grasses and weeds that have been brought into a country have spread from an insignificant beginning until they have permanently established themselves over a vast territory.

Our dispatch from Morrilton says these boll weevils are in a bottle which is kept tightly corked, but some of the insects have been alive for a month. The dispatch says further that a "cotton square put into the bottle will be readily devoured."

But suppose a female weevil lays her eggs in a cotton square and it is then thrown out. The eggs might develop into larvae and these into weevils, which next spring would proceed to increase and multiply.

The safest way to show what the boll weevil looks like is to use the method adopted by the Gazette, simply show a picture of the terrible creature.

Cats in Japan.

Cats in Japan almost universally have short tails, says an authority, and if a cat comes into the world with a lengthy caudal appendage it is usually chopped off, for the Japs detect a likeness to snakes in the long tail and cannot endure it.
